WINTER SPORTS

Skiing—Tobogganing—Snowshoeing

Ski over snow-upholstered hills, through ermine-clad landscapes. Toboggan down frosted aisles of pines. Frolic in scenic wonderlands festooned with Winter's gorgeous white draperies.

COLORADO ROCKIES—One of the finest snow sports regions in the world. Skiing country can be reached by short rail or motor excursions out of Denver and Colorado Springs, or various snug resorts offer accommodations in the heart of the snow country.

WYOMING BIG HORNS—Here hospitable dude ranches in the heart of snowy fastnesses offer pleasant bases for limitless cross-country skiing over unsurpassed powder snow through magnificent alpine scenery.

UPPER MISSISSIPPI 'ALPS'—Timber-free slopes and unusually dependable snow conditions make the hilly region surrounding LaCrosse, Wis., a favorite destination for week-end skiing excursions from Chicago during the winter months.

THE Zephyrs

The story of the Burlington Zephyrs is one of the most brilliant and fascinating in all rail history. Only four years ago the first of these renowned speedsters startled the travel world with a record-breaking non-stop run (a record since broken . . . by another Zephyr!), and so introduced the present era of high-speed streamline rail travel.

Today there are 8 Zephyrs in regular daily service. Winter and summer, snow or shine, they flash over high-speed runs that call for an amazing total of over 175,000 miles of operation per month . . . well over two million miles per year. All are built of enduring stainless steel, Diesel powered and designed for every travel comfort. All have exceeded . . . in mechanical performance, operating economies and popularity . . . the fondest hopes of their creators, builders and sponsors.

None of the Zephyrs are Extra Fare Trains

Chart Showing Freight Schedules 15 Years Ago

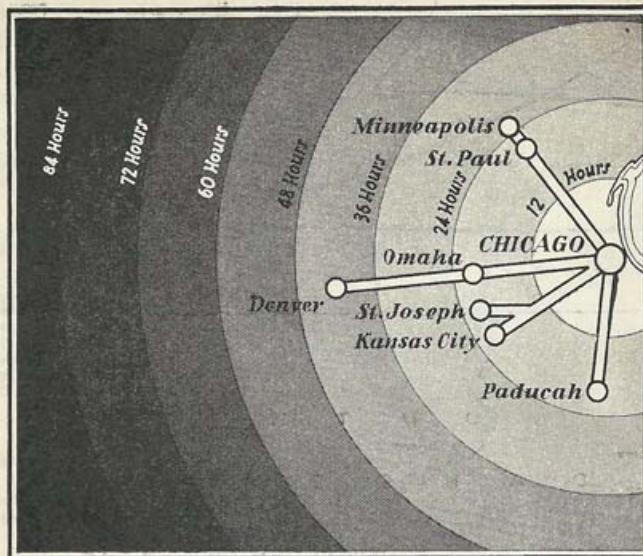

Chart Showing Freight Schedules Today

Shrinking the Map of the West

There was a time, not so long ago, when the West's magnificent distances were its worst business enemy. Markets were remote. Days were required to ship products out and to bring goods in. And time is money in any business.

How the Burlington Railroad has overcome this handicap for the territory it serves is graphically shown in the chart-maps above, covering a period of the last 15 years.

In 1923 it took a carload of freight nearly three and one-half days to move from Chicago to Denver, two days from Chicago to Paducah, and about a day and a half from Chicago to the Twin Cities, Omaha, Kansas City or St. Joseph.

Today freight moves from Chicago to Denver in less than two days, to the Twin

Cities, Omaha, Kansas City, St. Joseph and Paducah in less than a day.

In fifteen short years freight schedules have been speeded up 30, 40, 50, even 60 per cent. Today, freight trains operate on fast, convenient schedules with the dependable precision of crack passenger fliers.

All of this makes for better business, better profits and better living for the people who live in the vast territory served by Burlington lines.

When you ship, as when you travel, depend on the Burlington for fast, economical, on-time transportation. Your local agent or a Burlington Traffic Department representative will be glad to show you how the Burlington can help solve your shipping problems.

TRAVELERS CHEQUES

May we recommend to our patrons a simple precaution against the loss or theft of travel funds.

You may change the cash you had planned to carry with you into American Express Travelers' Cheques, which for the small cost of 75c for each \$100 purchased, are available at many of our larger ticket offices in convenient denominations of \$10, \$20, \$50 and \$100. They are spendable everywhere, and if lost or stolen a prompt refund is made.
